Professional Summary

Automation Test Engineer with **4+ years of strong experience** in designing and developing scalable automation solutions for **UI and API testing**. Specialized in building **Hybrid and BDD frameworks** using **Selenium, Rest Assured, Java, and TestNG**.

Proven expertise in **API automation using Rest Assured and Postman**, along with end-to-end test automation across web and mobile platforms. Experienced in Agile environments, Jenkins CI/CD integration, and delivering high-quality software through robust automation strategies.

Key Skills

- **Automation:** Selenium, Rest Assured, Postman, Newman, BrowserStack AI LCA
- **Frameworks:** Hybrid, BDD, TestNG
- **Programming Language:** Java, JavaScript
- **Tools:** Jenkins, Git, GitHub, AWS, BrowserStack, Litmus
- **Test Management & Defect Tracking:** Jira, HP ALM Octane
- **Testing:** UI, API, Mobile, Cross-browser, Performance, Load
- **Methodology:** Agile, SDLC, STLC

Professional Experience

Associate Quality Analyst Engineer

Asentech LLC, Bengaluru | July 2023 – Present

Project: Viatris Connect

Technology Stack: Java, Selenium WebDriver, TestNG, Rest Assured, Maven, Postman, Newman, Jenkins, BrowserStack, Litmus, Git, Agile, Android & iOS Testing

Project Description: A global healthcare platform used by medical professionals to access resources and deliver improved healthcare services across multiple countries.

Software Test Engineer

Samartha info Solutions (OpenText Client), Bengaluru | April 2022 – July 2023

Project: NetIQ eDirectory & Identity Management (IDM)

Technology Stack: Java, Selenium WebDriver, TestNG, HP ALM Octane, Maven, Postman, Rest APIs, Jenkins, Ansible, Linux, Git

Project Description: Enterprise identity and access management solution providing secure authentication and scalable identity governance.

Roles and Responsibilities

- Designed and developed a **Hybrid Automation Framework** integrating **Selenium (UI) and Rest Assured (API)** with **BDD**.
- Built and maintained **API automation scripts using Rest Assured**, ensuring backend validation and data integrity.
- Integrated automation suites with **Jenkins CI/CD** for continuous execution.
- Used **Postman for API validation, debugging, and collection execution**.
- Led automation efforts, improving **test coverage and execution efficiency**.
- Developed and maintained **Selenium automation scripts using Java and TestNG**.
- Implemented migration of automation scripts from **Selenium-Java** to **BrowserStack AI LCA Automation**, improving automation efficiency and maintainability.
- Performed testing in **Linux environments**.
- Developed and executed comprehensive **test strategies** and **test plans**, ensuring full traceability with business and customer requirements.
- Managed the complete **defect lifecycle**, including defect **identification, prioritization** and **collaboration** with **development teams** for timely resolution.
- Collaborated with cross-functional teams including **Developers, QA engineers**, and **Product Owners** to define **automation strategies, identify test scenarios**, and **prioritize testing efforts**.

Education

- **Bachelor of Engineering (B.E)** from GM Institute of Technology, Karnataka
- Pre-University (PCM with Computer Science), Sri Vaishnavi Chethana PU College, Karnataka

Certifications

- **AWS Certified Solutions Architect – Associate** – Amazon Web Services
- **SDET Certification** – QSpiders, Bengaluru
